CAREER OBJECTIVE

Motivated MCA fresher seeking a Trainee Software Developer role where I can apply my skills in Python, Django, SQL, and problem-solving to contribute to real-world projects and grow professionally.

EDUCATION

Master of Computer Application (MCA)
Medi-Caps University, Indore | 2023–2025
GPA: 7.48

Bachelor of Science – Computer Science
MRSC, Indore | 2019–2022
GPA: 7.00

WORK EXPERIENCE

Software Intern – RentPrompts (Jan 2025 – Apr 2025)

- Assisted in building web-based tools and automation scripts using Python & basic backend logic.
- Worked on project documentation, requirement understanding, and UI flow improvements.
- Contributed to simple database operations and integration tasks in internal tools.
- Collaborated with team members to improve product usability and workflow.

PROJECTS

1. Smart Waste Management System (Major Project)

- Developed a real-time waste monitoring dashboard using Python & MySQL.
- Designed front-end pages (Registration, Event, Scheme, Problem Page).
- Created database schema & implemented CRUD operations.
- Worked on basic route logic to improve waste collection flow.

2. Student Management System (Java + MySQL)

- Built a CRUD-based mini project using Java, JDBC, MySQL.
- Implemented login, add/update/delete, search functionality.
- Designed normalized database and connected UI with backend.

CERTIFICATES

Python 3.4.3 Training (Spoken Tutorial – IIT Bombay)

November 2024

- Successfully passed IIT Bombay's online Python exam with 61.71% score.
- Training held at Medi-Caps University under the Spoken Tutorial Project by IIT Bombay.

SKILLS SUMMARY

- Languages:** Python, SQL, HTML5, CSS3
- Frameworks:** Django
- Tools:** MySQL, GitHub, Git
- Platforms:** Visual Studio Code
- Soft Skills:** Leadership, Communication, Problem-Solving
